SIZE	GLUE SURFACE
2 inch	2-3/4"
3 inch	2-5/8"
4 inch STEP DOWN	1-5/16" EACH STEP
4.35 inch	2-5/8"
4.5 inch	2-5/8"
5 inch	2-3/4"
6 inch	2-3/4"

M.A. Industries

Vault Conduit Terminators (VCT) are manufactured in Peachtree City, GA. under strict quality control procedures and are injection molded out of quality material giving you the most consistent product on the market.

M.A. VCT's are available in 2 inch, 3 inch, 4.35 inch, 4.50 inch, 4 inch step down, 5 inch and 6 inch diameters.

Sealing rings are available for all models. The sealing ring makes a smooth edge on inside surface of the opening to protect cables during pulls and to prevent material from entering the terminator opening.

M.A. Terminator Grid System

Detachable bar provides support at the top of terminator banks and can be stacked to create 8", 9" or larger terminator spacing distances

Grid System secures terminators from size 2" to size 6"

2" - 6" Terminator Grid
Item # 004-752
128 pieces per case

4" - 6" Terminator Grid
Item # 004-753
128 pieces per case

Terminator Spacing Bar
Item # 004-754

50 pieces per case

Grid System accepts all sizes of terminators.

Designed with 8" spacing.

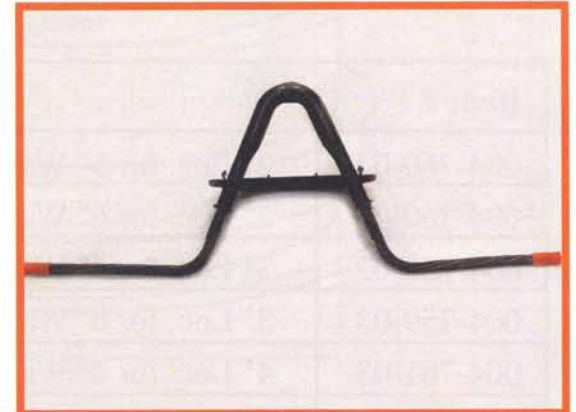

1" Spacing Bar is used to create additional spacing options.

Pulling Iron

Item# - 004-570

Qty - 25 per box or 400 per Gaylord

Pulling Irons are made of 1/2" stranded 27K PSI cable and durable polypropylene plastic. They are made with the end user in mind. Pulling Irons must be secured to the steel reinforcement cage. They are rated at 7500 lbs. each for anchoring capacity. Pulling Irons are durable and flexible and securely snap into the Pulling Iron Pocket.

Pulling Iron Pocket

Item# - 004-573

Qty - 25 per case

Pulling Iron Pockets are designed for easy installation and can improve the efficiency of your operation. No need to pack the pocket with foam to stabilize the pulling iron, the pocket's unique design will keep your pulling iron from shifting forward or backward. This ensure you of easy cable hook ups.

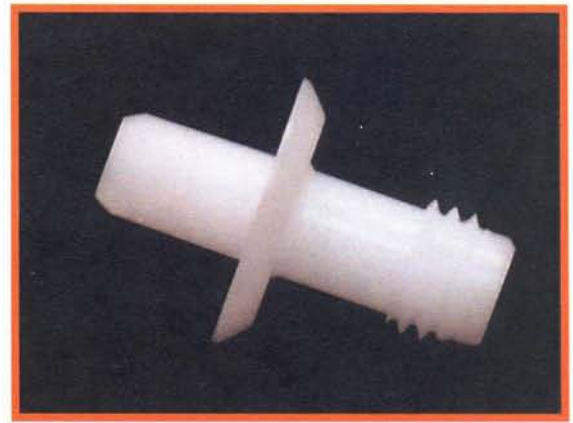

Utility Vault Products

Anchor Insert Locator

Item# – 004-410

The locator holds insert in place while pouring. The Locator is sheared off during stripping. The locator is screwed into the insert. Then it is tapped into a pre-drilled 3/8" hole in the form. During stripping, the locator shears off leaving the insert in place.

1/2" Anchor Insert

Item# – 004-400

Qty – 500 pieces per box

1/2" Anchor Insert meets Bell Specifications. They are easy to use, inexpensive, and will not corrode. They are light weight which makes them less expensive for shipping and handling. Inserts are competitively priced. They are chemical resistant. They show no effects from vibration. They have deep grooves for maximum Pull-Out Resistance.

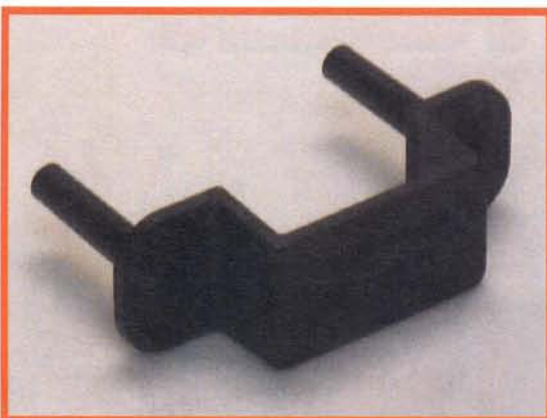

Sump Pan & Lid w/String

Item# – 004-530K-S

Qty – 12 pieces per box or 54 pieces per Gaylord

Sump Pans are manufactured from high strength plastic making them totally corrosion free. Sump Pans are light weight and easy to handle.

Sump Pans are designed so the lid locks securely to the pan keeping it securely in place. Removal of the lid is accomplished by snapping the lid out of the pan with a screwdriver and replacing it by slipping it into place with your hand. Lid is attached to pan with rope to prevent lid from floating away.

Uni Strut Clamp

Item# – 004-450

Qty – 600 pieces per box

Uni Strut Clamps are all one piece. They save time and money. Uni Strut Clamps can be used with 1" or 1 5/8" Uni-strut. They securely fasten to your form holding the uni strut in place during the pour. No need for wire or spot welding. Eliminates the safety issue of crawling under the form.
